

# Certificate IV in Building and Construction (Estimating) CPC40308

## ▼ Course Information

TIV's Certificate IV in Building and Construction (Estimating) CPC40308 course is designed with input from residential and commercial builders. This ensures that we are up to date with current requirements, standards and trends. This course is ideal for men and women who intend to pursue careers in areas such as:

- *Estimator*
- *Quantity Surveyor*
- *Estimating Consultant*

## BUILD YOUR FUTURE

Our Certificate IV in Building and Construction (Estimating) CPC40308 – Builder Pathway is designed to be delivered in conjunction with the Certificate IV in Building and Construction (Building) CPC40110 course. At the end of both courses you will be awarded two qualifications. This course comprises individual and group activities undertaken at TIV's simulated construction sites, actual construction sites, and in interactive classes throughout the overall program. This course is designed to develop your professional building skills to observe, analyse and evaluate various building operations and processes **as if you were the Estimator**.

### Course Duration

This popular course structure is delivered:

- One (1) Saturday per week for four (4) weeks in conjunction with the Certificate IV in Building and Construction (Building) followed by up to ten (10) weeks of additional training support for those who require it.
- Optional tutorials

### Student Support

We run tutorial sessions every Saturday morning and some Monday afternoons. Any student can participate. The Student Support Team can be accessed directly for any additional training by any student, or by referral by their trainer. Student support continues for three (3) months after the timetabled course completes for those students requiring additional training.

### Is The Course Subsidised?

**YES.** This course is delivered with Victorian and Commonwealth Government funding for eligible individuals. Call us today to discuss your eligibility.

### Course Checklist

- You are eighteen (18) years or older
- Construction experience is not necessary but may be an advantage
- Have a laptop with Microsoft office programs (or equivalent) and internet access for the duration of the course
- Can read, write and speak English competently
